

Dear sir/madam

I would like to invite you for a future Comenius project for 2011-2013.- "Euro school links"  
The project would promote active Citizenship in participating schools trough building of an internet platform which could share the joint work and promote Environmental research and communication between students, teachers and schools from all Europe.

We coordinated Amazing Europe Comenius Multilateral Partnership. (2008/10)

<http://www.comenius.ieslasegarra.com/>

Please answer urgently if you can participate, or, if possible, foward this message to any of your friends.

Thank you.

From Portugal,

yours sincerely,

António Mendes

**"Amazing Euro School Links" is a Comenius project that aims to promote European Citizenship and cooperation between participating countries. We aim also to share our own Culture, Art, History and Tradition through a cooperative work between schools, students, teachers and communities from all geographical Europe.**

**"Amazing Euro School Links" will be our common ground of research and each school will approach this theme by promoting a specific school project, which can reflect several aspects of their reality.**

**"Amazing Euro School Links" will promote the use of telecommunication and new technologies in a way to help European teenagers to study their culture and to share their research.**
